EXPERIENCE
Dezy (Formerly Smiles.ai)   *March, 2022 - Present*
Software Engineer   Remote(Bagalore, Karnataka)

- Used **ReactJS**, **NextJS**, **Tailwind CSS** for frontend, and **Django** for backend.
- Created lead generation features end-to-end to improve **customer retention by 30%**. Made scalable and robust infrastructure using SQS and lambda, protecting lead data during system crashes.
- Integrated multiple payment gateways like **Cashfree**, **PayU**, **Shopify**, and **Razorpay** which provided 4 payment ways and added easy EMI options.
- Integrated WhatsApp providers for business which increase **conversion rates**.
- Developed customer-facing webpages in NextJS and Tailwind which provided crucial data related to the patient and helped in operations too where **90% customers landed.**
- Used tools like Retool, and Rockset for making web apps for the operations team

ViralMeme   *December, 2019 - January 2021*
Software Engineer   Remote

- Tech Stack Used - **Java, Kotlin, XML, Firebase, Mixpanel**.
- Developed Android applications from scratch, and set up projects and repositories.
- Made a custom meme editor using a ready-made meme library which increased **retention by 50%**
- Configured auto **OTP read and Google authentication** using Firbease
- Used **MixPanel** for analytics and worked on Crashlytics to resolve up to **90% of bugs**.
- This app was used by more than **1500**+ users.

PROJECTS

Corona Tracker   Github   Live

- **ReactJS**-based web application with real-time COVID cases in more than 80 countries.
- Used mathdro covid19 API for fetching 100+ covid19 cases
- Tracks total death, affected, and current cases worldwide.

LearnTurtle   Live

- **GastbyJS**-based application for tech blog with 1000+ visitors per day.
- Used **Graphql-based APIs** for fetching 100+ blogs in the desired manner.

EDUCATION

B.Tech, CSE   2018 - 2022
National Institute of Tehnology, Patna   8.28 CGPA

Intermediate, Science Stream   2016 - 2018
Krishna Public School, Patna   85%

PROFESSIONAL SKILL   TECHNICAL SKILL

- Team Building   • Managment   • Python   • Javascript   • NextJS
- Ownership   • ReactJS   • Github   • AWS

ACHEIVEMENTS

- Googel DSC Mobile app developer lead.
- Hacktoberfest, 2020, 2021, Uplift project 2020 mobile development mentor
- Codechef 4 star, Hackerrank 6 stars
